	<u>Comment Key</u>	<u>Description</u>
New		New RUP products registered since the last complete list was issued.
Discontinued		Products in the first or second year of the required two-year discontinuance period before cancellation. These products are currently registered and can be sold. This information is included to indicate that the manufacturer may not register these products in subsequent years and therefore, existing stocks should be sold as soon as possible.
MI RUP		Products that are not federally-restricted but are restricted by the State of Michigan pursuant to Regulation 633. Because they are not federally-restricted, they will <u>not</u> bear the words "Restricted Use Pesticide" on the label.
